DUST SUPPRESSION

WE BEAT THE DUST!

THE RIGHT SOLUTION FOR EVERY DUST PROBLEM!

DUST CONTROL

Fine dust emissions are hazardous.

For years, MB Dustcontrol has been manufacturing fog solutions that optimally control dust and minimize the risks.

Our proven system consists of weighing down the emitted dust particles by binding them with droplets of water (fog) so they quickly fall to the ground through gravity.

Because we believe that every dust problem is unique, we work closely with our customers to find the right solution.

WE BEAT THE DUST!

SPRAYCANNONS

MB Dustcontrol makes a full range of (mobile) SprayCannons. With or without trailer, water tank, or generator and from small to big. UV unit, remote control or frequency control are but a few of the available options. MB Dustcontrol also provides indoor dust management solutions that can be mounted on a wall or ceiling, as well as solutions that can be used in open spaces. Our SprayCannons spray a wall of fog from 5 metres to 100 metres far and up to 35 metres high.

WITH THE SPRAY WALL DUST HAS NO CHANCE!

SPRAY WALL

MB Dustcontrol uses SprayWall hoses to weigh down and control dust emissions. A SprayWall hose consists of a 3" fire hose with special exchangeable nozzles and supports so the fog/spray can reach every corner. With a maximum pressure of 10 Bar, we can throw a fog/spray wall (or ceiling) up to 10 metres high. The hoses are delivered in lengths of 20 metres and can be quickly connected to each other to maximize the range.

HIT THE ROAD WITH CLEAN WHEELS!

MOBILE WHEEL WASH SYSTEM

Hit the road with clean wheels ... MB Dustcontrol makes sure your vehicle doesn't soil public roads. Our wheel wash systems are specially designed to optimally remove light to medium soil from a vehicle's wheels by washing/blowing off soil by spraying pressurized water from nozzles against the wheels and the chassis.
